CHILDREN'S BIBLE DRILL
SCORE SHEET

In every instance give participants the benefit of the doubt. For example, if someone is stepping out when "time" is called, do not count that as a mistake.

Mistakes are:

1. Child fails to step out within 10 seconds.
2. Child gives incorrect response. This includes any child who raises his or her hand , indicating an error.
3. Child fails to stand straight or keep eyes on the drill caller until the command "start" is given.
4. When the Bible is used, child steps forward before the index finger is on the correct response.
5. Child fails to handle the Bible according to instructions or obviously misuses the Bible. The Bible should be parallel to the floor with one hand flat on the top and one hand flat on the bottom with no fingers extending over the edges.

One of the three judges should serve as chairperson. This judge checks the math of the other judges. He or she then adds the three scores for each child and divides the sum by three to get the average number of errors. Then the chairperson subtracts averaged number of errors from 24 to get the child's final score.
(Example: 4+4+4=12/3=4. 24-4=20. 20 is the child's final score.)

The chairperson gives the scores to the drill caller so that he or she can tell the audience which children will advance to the next drill.
The decision of the judges is final and should not be discussed.
